editor's note

When I sit down to write my editorial letter, I always ask myself: What do our readers really want? What makes them feel happy and empowered when it comes to knitting?

I'm pretty sure that we all share the same common goal of wanting to be happy, and it's my wish that when you turn the pages of *Creative Knitting* magazine, I'm doing my job to make sure that you find projects that make you feel even more passionate about this craft that we so adore.

So let's dig a little deeper—when it comes to knitting, what exactly is it that makes you happy? Is it the way the yarn glides through your fingers? Is it the rhythmic motion created by knitting in the round? Does the idea of making something for a friend or a charity get you excited, or do you seek new designs for your seasonal wardrobe? Do you like to dabble in making your own designs? For me, the simple act of creating something with my own hands is what really sums up why I get warm and fuzzy. When we create, we're in touch with a deeper side of ourselves, and knitting also offers a lifetime of learning. Just when you think you know it all, something sneaks up to humble you! Hey, we all get stumped at times, but you'll get over that hump. When you do, you'll feel empowered with the confidence that propels you to the next level.

Now that the summer is fast approaching, let's keep those happy feelings going while you keep cool. With the variety of breathable yarns available this season, you'll see that knitting through the spring and summer can be a pleasurable pursuit. In this issue, we've taken advantage of using a variety of yarns made with cotton, linen, viscose, lightweight wool and recycled fibers.

Keep knitting, be happy and stay cool!

Kara

Whether you're a new subscriber or you have been with us for years, we love hearing what you have to say about *Creative Knitting*!

Dear Editor,
I began knitting the Faux Cabled Coat from the November 2009 issue, and noticed that the pattern didn't seem quite right. I thought perhaps it would be too late to find if there were any corrections to the pattern posted online, but I searched, and the corrections were still there. I just wanted to thank you for maintaining them.

Kathee Secor, via email

Dear Editor,
I have been a subscriber to *Creative Knitting* since it started in 1978 as *Knitting World*. I've been knitting for over 50 years. I can't begin to tell you how much I love your magazine. Keep up the good work.

Beverly Klein, Twin Lake, Mich.

Dear Editor,
I've enjoyed *Creative Knitting* for years. While I am an experienced knitter, I enjoy the smaller projects—scarves, hats, bags, critters etc.—which are fun to knit for friends and family.

I also started a knitting group at our local library and suggested the members subscribe to *Creative Knitting*. Small projects in easy and beginner skill levels are great for them. Thanks so much!

May Gaynor, Strasburg, Pa.

book reviews

By **EDIE ECKMAN**

Set the stage this summer and celebrate color, explore new yarns and create sweet-as-can-be designs for mother and child.

Sweet Shawlettes

By Jean Moss (Taunton Press, 144 pages, $21.95)

Shawlettes, cowls, capelets and scarves. Whatever form they take, these little bits of knitting are more popular than ever. Maybe it's because they are so accessible and quick to knit, or because they take relatively small amounts of yarn and exact fit isn't often required.

Sweet Shawlettes contains 25 patterns, and there truly is something for every type, age and skill level of knitter. Techniques used include simple stockinette stitch, Fair Isle, lace, entrelac, intarsia, shadow knitting, beaded knitting, cables and texture stitches. The chapters are arranged by design sensibility: Country, Couture, Folk and Vintage. The size of the projects, combined with clear instructions and charts, makes this book a good choice for advanced-beginner knitters ready to try new techniques, as well as more skilled knitters looking for fun and practical projects.

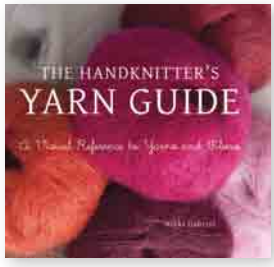
Knitting With the Color Guys

By Kaffe Fassett and Brandon Mably (Sixth&Spring Books, 176 pages, $24.99)

Designers Kaffe Fassett and Brandon Mably are known worldwide for their exuberant use of color. In this collaboration that love of color is apparent everywhere, from the simple graphic patterning to the lovely background settings and inspiring photographs.

More than thirty patterns are provided here, along with detailed instructions and charts. However, even if you can tear yourself away from the beautiful photographs long enough to delve into the patterns, you won't find sweater patterns here. By sticking to simple accessories and home decor items, such as pillows and throws, you can concentrate on choosing colors and patterning and not worry as much about exact gauge and whether or not your garment is going to fit. Be sure to read the introduction, where the authors urge you to experiment with your own colorways.

If you are familiar with the work of these two extraordinary artists, you'll be pleased with this latest inspiration. And if you aren't yet familiar with them, it's high time you were!



The Handknitter's Yarn Guide: A Visual Reference to Yarns and Fibers

By Nikki Gabriel (St. Martin's Press, 176 pages, $24.99)

Walking into a well-stocked yarn shop can be an exhilarating experience. But it can be daunting, as well. All that yarn! All those fibers! All that color! How do you choose the best yarn for your project? The key is in understanding the different types of yarns and how they behave. *The Handknitter's Yarn Guide* organizes yarns by weight and fiber, with details on gauge and yardage, and lovely full-color, close-up photographs.

Beyond the ordinary discussion of yarn weights, this handy reference includes both the pros and cons of each type of yarn, and what types of projects are best suited for that yarn.

One of the most interesting aspects of the book is the knitted-up swatches, which show many of the yarns in plain stockinette stitch, a simple cable and a simple lace pattern. Because the swatches are made in the same stitch pattern for each yarn, it's easy to compare the various yarn types in their knitted state. Scattered throughout the book are handy tips on substituting yarns, factors affecting stitch definition and suggested yardage for sweaters.

Mom & Me Knits

by Stefanie Japel (Chronicle Books, 132 pages, $22.95)

Like mother, like daughter. What could be more fun than making matching outfits? *Mom & Me Knits* serves up ten pairs of designs for mothers and kids. Each is knit from the top down on a circular needle: stylish and shapely garments for mom, with more youthful versions for the offspring. Different colors, yarns and detailing keep the garments from becoming too matchy-matchy. There are four projects for babies and six for children sizes 4 through 10, including a child's halter top and doll's halter top, so your little one can have her own "mom and me" sweater with her little one.

The mother of two young daughters, Stefanie Japel has real-world experience in what makes a great kids' sweater: cute, practical and wearable. And grandmothers, take note: These would make great gifts for your daughter and granddaughter!

Lace Knitting or Knitted Lace

Have you ever wondered if these are the same thing? I have, and recently looked it up and the difference is whether there is a "plain" row between pattern rows or rounds. If there is, it is Lace Knitting. When there is patterning every row, it is Knitted Lace.

Q I've had trouble staying in pattern in a previous attempt at lace, can you help?

A I love working lace, and I do suggest that you start with Lace Knitting so you have that plain row or round. I consider it a relax row/round. Here are my suggestions:

1. Lace is easier if you use markers generously. I use them to separate every single pattern repeat. That way I can more easily find an error before I get into trouble and isolate the problem.
2. Count after every pattern row. This may seem time consuming and it is easy to forget to do it, but if you count every repeat before you do the next row, or carefully count while working your plain row, you will usually find any error.
3. Every yarn over needs to be matched by a decrease unless it is being used to increase. I find the easiest mistake to make is to forget to yarn over, especially if the yarn over occurs away from the decrease. If you check yarn overs and decreases as you go, you will make successful forward progress.

After that, it's just staying on track!

Q Is lace easier to work from a chart than from written directions?

A Many people have a preference for charts over written directions in lace because it allows them to see the pattern progression more easily. I like to have both because it is easier for me to memorize from a written pattern, but I like to have the chart to visually cue me as I go.

Pattern Notes

Shawl begins at 1 corner and increases to create a crescent shape. The neck edge forms along the right edge of the knitting. The decorative edge is knit while working the body of the shawl; upon completion the edge stitch is dropped to create the picot edge. The dropped stitch along each edge provides the loops used to create the picot edging. The edges will bunch and gather until the end when the edge stitch is dropped.

Slip all stitches purlwise with yarn in front.

A row counter is helpful in keeping track of where you are in the swirl pattern.

Charts are provided for those preferring to work swirls from a chart.

Completing Swirls

Note: *When working following rows, additional St sts are worked in each swirl, but no new swirls are added.*

Row 1: Sl 1, k2, *yo, k1, yo, k2, yo, knit to 2 sts before next marker, k2tog; rep from * to last 4 sts, end yo, ssk, k2.
Row 2: Sl 1, k2, p1, *p2tog, purl to next marker; rep from * to last 3 sts, k3.

Rep [Rows 1 and 2] 21 times more—36 sts.

Rep Row 1—38 sts.

Bind Off

Notes: *Two sts are bound off every 2 rows. In order to continue swirl pat while binding off, the 2 sts following each marker on the WS must be worked as a dec. If a marker is 5 sts from edge after working a RS row, on next WS row: Sl 1, k2, p1, p3tog, sl 1, turn in order to work dec and bind off. Then continue to work bind-off as before. If a marker is 6 sts from edge after working a RS row, on next WS row: Sl 1, k2, p1, p2tog, sl 2, turn; then on next RS row: K3tog, yo, ssk, k2, turn to incorporate both the dec and bind-off. Then continue with bind-off as before.*

Row 1 (WS): Sl 1, k2, p1, p2tog, sl 1, turn.
Row 2 (RS): K2tog, yo, ssk, k2, turn.

Rep Rows 1 and 2 for bind-off,

Designer's TIP

Because the stitch count in this project is constantly changing, it's easiest to keep track of the pattern by counting the number of stitches between the first two markers at the neck edge after completing a row. All markers are slipped and positioned to the right of a yarn over when working a right-side row. There are three neck-edge stitches and four outside-edge stitches.

Blocking Tips: Thread blocking wires through the outside loops, and then pin the wires so that shawl is stretched into a large circle shape. To create neck edge, weave pearl cotton through inside picot loops using a darning needle, and then pull the ends of pearl cotton tight, creating a round inside edge. Tie pearl cotton and pin knot to keep it from untying. If preferred, edge loops may be pinned out individually to create the picot edges.

Helpful Hint: To determine how much yarn is needed to bind off, weigh ball of yarn before and after working the last row before the bind off. Multiply the difference by five. This estimates how much yarn is necessary for the bind-off row.

BERROCO
FROM CONCEPT TO CREATION

By Kathy Blumenstock

The teamwork ethic behind building a yarn collection.

The Berroco Design Team in action: Top, Amanda Keep, (left) and Norah Gaughan. Bottom, Brenda York, (left) and Donna Yacino.

That must-have cardigan, a flattering hat or two, maybe a super-cool tank or vest with extra verve—each eye-catching parade of new designs from Berroco heralds the changing seasons, tempting knitters with texture and silhouette, and illustrating the versatility of Berroco's design team. What does it take to pull together those distinctive styles, from a swirl of brainstorms and swatches, through glossy finished pattern booklets?

"In planning a collection, the first thing we do is look at what's happening in retail fashion, including stores and websites," said Norah Gaughan (rhymes with "gone"), Berroco's design director. "Proportions are a trend of particular interest. Recently, there have been so many oversized things, while for the previous 10 years, everything was very fitted," she said. "We like to reflect a bit of the new and the old."

Then, after conducting their research, Norah and designer Amanda Keep determine what kind of garments they want in their next pattern booklet. "We may do fewer cardigans or more short-sleeve pullovers. If we're introducing new yarns, we want eight to 10 items for each yarn. It's a heart wrenching decision, choosing which pieces go in the book. And because our job is to sell yarn, there might be a design we're really into, but if it won't work with a particular yarn, it's out. The yarn has to drive the design."

There's color to consider too. Norah, who is often drawn to shapes such as hexagons and surface texture, is personally drawn to "drearier" color choices. "All the grays and dulls, I like those and like wearing them, but our customers are diverse, so we can't do all dull all the time," she said with a laugh. "There are a lot of brighter colors

1. Berroco Lago™
2. Berroco Linsey™
3. Berroco Captiva™

that are 'in,' as well as beautiful pastels; they're not 'sweet' but are just a bit grayed out."

Norah and Amanda bring their ideas to life by sketching—Amanda on paper and Norah on her iPad. "This way it can go straight into the computer. I don't have the patience for a bunch of different steps, and this way I can make the variations more easily," she said. Norah said that she and Amanda, who has a degree in textiles, are both "fabric" people and that they share similar design methods, including expanding upon what they've recently done. They frequently talk about potential changes to their ideas, incorporating those into the sketches. "If we know the kind of stitch we want, our technical editor, Brenda York, figures out what I'm picturing, and we'll write down all the details." Then the swatching begins.

With multiple personalities involved, "sometimes we can't even put a single name on a design, as it comes from all of us," said Norah, explaining why many patterns indicate "By the Berroco Design Team." The team includes Brenda, who produces schematics, and design assistant Donna Yacino, who lends a hand wherever needed. Gradually, they take individual ownership of items, debating what kind of rib and how deep a V-neck should be. "If silhouettes are changes in fashion, like now, we'll keep some designs fitted and start experimenting with the new proportions," explains Norah.

"Our goal is to be wearable but interesting—not the same as you see everywhere," Norah said. "We, as a company, try to reflect what's going on in fashion, but don't feel the need to be be on the cutting edge. If we're reflecting what's in the stores at the same time our pattern booklet comes out, we're in decent shape," Norah said. "Most of our customers want something they've seen, but not the crazy new things that really high-fashion designers put out."

At almost any point, a design may be discarded. "If it isn't feeling right, if it comes back from the knitter and isn't quite what we want—it goes," Norah said. "We leave room for some things not to make it into the book; those become free patterns or are sometimes edited out."

In Norah's individual collections, the designs are aimed at

Flower: 20 sts and 26 rows = 4 inches/10cm in St st using dpns and single strand of yarn.

Special Abbreviations

Knit front and back (kfb): Inc 1 st by knitting into front and back of next st.

Make 1 Right (M1R): Insert LH needle from back to front under horizontal strand between st on RH needle and st on LH needle. Knit into front of resulting loop.

Make 1 Left (M1L): Insert LH needle from front to back under horizontal strand between st on RH needle and st on LH needle. Knit into the back of resulting loop.

Special Techniques

French Knot: Thread about 16 inches of yarn in a yarn needle and make a knot in the end. Pass yarn from the back to the front at desired location for French Knot. Use your left hand to pinch working yarn and give it some tension at the point where yarn is exiting on RS. Slide your left hand a few inches away and pass threaded needle under yarn 3 times to make 3 loops around needle. While still maintaining tension on the yarn so loops are taut, insert needle back into the same hole from front to back. Slowly pull excess yarn through knot all the while maintaining light tension on the yarn with left hand. Rep in a new location for as many knots as desired. After completing last knot, secure yarn on WS.

Whipstitch: Make small sts from side to side between 2 edges.

Running Stitch: Make a line of sts by passing a threaded needle in and out from RS to WS. The sts do not overlap.

Pattern Notes

The cube cover is worked using two strands of yarn held together. The flowers, stems and leaves are worked using a single strand of yarn.

Pick up stitches in the valleys formed by garter-stitch ridges.

Embellish 1 side of the cover at a time. Don't sew any of the pieces in place until they have all been pinned to the side you're working on. This will allow you to adjust the placement until you are pleased with the overall look.

Designer's **TIP**

The amounts given in the materials list will make flowers, stems and leaves for two sides. One skein of each color is more than enough to make embellishments for all four sides if desired.

Cube Cover

Top

Rep from * on other side.

The top should be 12 inches square.

Stay Cool & Keep Knitting

By Kara Gott Warner

JOAN MCGOWAN-MICHAEL has discovered a "no-brainer" way to carry your knitting endeavors effortlessly into the warmer summer months.

In the knitting world, Joan McGowan-Michael is known for her romantic lingerie-inspired designs. As a veteran to the fashion world, Joan worked as a professional designer for over 25 years, styling garments for diverse retailers such as Frederick's of Hollywood and JCPenney.

In 2001, McGowan-Michael founded White Lies Designs with her husband, Mike. The company has become the go-to resource for hand-knit lingerie patterns, including other romantic, vintage-inspired knitwear. Joan believes that all women are beautiful, and she strives to enhance that beauty through the patterns she designs. All of her patterns are available in a wide range of sizes from petite to plus size.

Joan discovered the concept of incorporating fabric into knitting when she began collecting vintage knitting and crochet patterns from the late 1800s and early 1900s. She noticed that there were patterns that would require fabric to be sewn in order to make them nightgowns, chemises or corset covers. Joan tried this out early in her lingerie design career by combining a stretchy bodice with a woven fabric skirt in dyed-to-match fabrics for a nightgown. "In commercial design, it's all about getting your garment to fit the widest variety of figures possible, and this nightie was a huge seller in that it was cute and fit pretty much everybody who put it on in a flattering way," says McGowan-Michael. She went on to use this technique again for several of the garments in her book, *Knitting Lingerie Style*, since it really does open up many possibilities for creating unique garments.

When it comes to knitting garments during the warm summer months, this technique is a "no-brainer," says McGowan-Michael. "Knitters might shy away from making and wearing a dress that is entirely knitted, but this technique doesn't require a huge commitment of time or a model's figure to look great and feel comfortable during the summer months," Joan further stated. The Summer Getaway Sundress on page 46, can be made by knitting the bodice in a fairly neutral shade and then pairing it up with a pretty print fabric for the skirt. Or, you can opt for using solid shades as illustrated in the featured design. The skirt can also be made with a lingerie-like fabric such as silk or a poly-satin for a luxurious nightgown, which would make a beautiful and uniquely personal bridal-shower gift.

This technique is so easy to master. If you can sew a pillowcase, then you won't have too much trouble with the sundress pattern. It essentially involves sewing a seam on two sides, a hem and attaching the skirt to the bodice. The only thing that requires some extra time is pinning in the skirt pleating, "but even that isn't too daunting for most people with a proclivity toward handwork, which I think most knitters have," adds McGowan-Michael.

Joan McGowan-Michael offers a class called Dress You Up, that teaches this special technique, To find out more about Joan and to inquire about having a class in your area, visit www.whiteliesdesigns.com or email joanmac@whiteliesdesigns.com.

Joan McGowan-Michael has written articles and published designs in all of the major knitting magazines and is a contributor to *Big Girl Knits* and *Stitch 'n Bitch Nation*. She has appeared on DIY network's *Knitty Gritty*, PBS's *Needle Arts Studio* with Shay Pendray and *Good Evening Sacramento*. Joan has also been profiled in *Cast On*, *Interweave Knits*, *Knit.1* and *Belle Armoire*.

Mix It Up
With Yarn & Fabric

Designer Joan McGowan-Michael shows you, step-by-step, how to work with yarn and fabric to create a fresh new look.

Materials
- 1½ yds 100% cotton 48- or 52-inch-wide crinkle gauze
- Sewing machine and basic sewing tools and supplies
- Completed knit bodice on page 46

Cutting
Cut 2 pieces of gauze for skirt: 25 inches by fabric width.

Cut 2 pieces of gauze for ties: 6 x 24 inches.

Mark top center of each skirt piece by folding piece in half and making a very small snip at the center.

Front
Begin folding and pinning pleats at top of front skirt piece as shown in Photo 1. Pleats should fold toward center mark.

Photo 1

Adjust pleats to fit width along bottom of front midriff band (see Photo 2).

Photo 2

Pin top front of skirt to bottom front of bodice (see Photo 3).

Photo 3

With sewing machine, sew bodice and skirt together along edge of bodice using 2 lines of stitching to secure.

Ties
Fold ties in half along length. Sew along long edge and one end. Turn right side out through opposite end opening. Press ties flat. Pin open end of ties to sides of front bodice as shown in Photo 4.

Photo 4

Back
Pleat and sew back skirt to back bodice referring to instructions for front.

Pin back to front with right sides together, sandwiching ties between front and back as shown in Photo 5.

Photo 5

Machine-sew side seams together through all layers.

Finishing
Try on dress and hem to desired length. Press entire garment lightly. ■

Creative Knitting® PRESENTS

Yarn Trends

This time of year can present some unique challenges when it comes to picking and choosing summer-friendly yarns. In this special supplement, you'll find yarns, notions, needles and other knitting supplies chosen especially to make your knitting endeavors even more enjoyable during the months ahead. As you browse through the following pages, I think you'll be impressed by the variety of yarns perfect for warm-weather knitting. Some are made with breathable blends such as cotton, linen and recycled fibers.

It's good to keep in mind that there are several benefits to working with yarns made with alternative and plant-based fibers, and I think the most important one is that they keep you cool! Even the lightest weights of wool-based yarns can be challenging to work with on hot days, but yarns made from plant fibers keep you cool because, generally, many are efficient in wicking away moisture from the surface of the skin. Additionally, they are the practical choice when it comes to making projects for the home such as washcloths and spa sets. Yarns made with plant fibers are strong in nature and tend to become even stronger when wet.

In regard to color variety, the runways have been infused with vibrant combinations, and yarn companies have followed suit by presenting an enchanting array of palettes to choose from. You'll also see many intriguing variations of color presented throughout this issue of *Creative Knitting* magazine.

As summer reaches its peak, I hope you'll feel compelled to energetically keep those needles moving without missing a beat, and I hope I've done my job to keep fueling your passion for yarn and knitting for years to come!

Bind off all sts kwise.

Designer's **TIP**

Some of the hexagons were matched up by color repeats, so when you hold 2 strands together, the colors change parallel to each other. This gives a longer color repeat on the hexagon. When the color repeats in the yarn are not matched, the hexagons will be variegated.

Assembly

Referring to Figure 1 and working from RS, join whole and half hexagons tog edge to edge, either by sewing tog with tapestry needle and yarn, or crochet tog using single crochet (see page 97).

Top & Straps

Beg at center front with 2 strands held tog and circular needle, RS facing, pick up and knit 144 sts around top edge of bag, at a rate of approx 16 sts on each whole hexagon and 20 sts on each half hexagon.

Work 6 rnds in garter st beg with a knit rnd. After last purl rnd, bind off 16 sts over first (center front) hexagon at beg of rnd, work next 56 sts, ending right before whole hexagon at center back, turn, placing rem 72 sts on holder.

Work back and forth in garter st on 56 sts, and *at the same time*, dec 1 st at each side every RS row by k1, ssk, knit to last 3 sts, k2tog, k1, until 12 sts rem.

Mark this row, and then work even in garter st until strap measures approx 8 inches from marked row. Bind off all sts.

Buttonhole Flap

Slide 16 sts above center back hexagon onto needle and work in garter st, dec 1 st at each edge of next 2 RS rows as above, then work even on rem 12 sts until flap measures approx 4 inches.

Buttonhole: Using cable cast-on (see page 92), cast on 10 sts at end of next row; turn and bind off all 22 sts.

Cut yarn, leaving a 6-inch end. Sew end to other edge of flap to form buttonhole.

Return rem 56 sts to needle and work top and strap as for other side. Sew ends tog. Sew button on front. ■

Easily recycle an old necklace chain for this necklace by snipping it in half with a wire cutter and then attaching each end to the pendant with jump rings as indicated in the pattern.

Finishing

To attach chain: Use chain-nose pliers to twist open 1 jump ring. Thread ring through top corner of pendant and then attach bottom loop of metal chain section to ring. Close ring securely using pliers.

Rep for other side. Attach half of clasp to opposite ends of chain. ■

Rep from * 4 times more for a total of 5 petals; do not cut yarn after working last petal—35 sts on 3rd dpn.

Join Petals

Cut yarn, leaving a 6-inch tail; fasten off.

With WS facing and using tail, join first and last petals with 2 or 3 Whipstitches.

Weave in all ends.

Block flower so that the inward curl of the petals relaxes.

Flower Center

Using dpns, cast on 24 sts.

Bind off all sts; cut yarn, leaving a 6-inch tail.

Roll in coil. With tail, sew to center of flower using Running Stitches; alternate short, inconspicuous sts on the RS with longer sts on the WS.

Work 3 French Knots in center of coil. Weave in all ends.

Row 18: P1, k1, p1.
Row 19: Sk2p—1 st.

Cut yarn, leaving a 6-inch tail; fasten off.

Do not weave in ends. Block lightly.

Assembly

With cover on cube-shape box and using T-pins, pin 3 flowers to 1 side of cover as desired. Remove cover from box.

Stems

Note: *Make stems after pinning flowers in place. Depending on placement of flowers, it may require some trial and error to get desired length for stems. Short stems will use 10–15 sts, medium stems 20–25 sts and long stems 35–40 sts.*

With dpns, cast on desired number of sts. Bind off.

Cut yarn, leaving a tail at least 6 inches longer than stem. Do not weave in ends.

Taking advantage of the stems' tendency to spiral, place and pin stems as desired adjacent to flowers.

Using yarn tails and Running Stitches, sew leaves and stems to cover, alternating short, inconspicuous sts on RS with longer sts on WS. Work Running Stitches around outside edges of leaves and through center of stem.

With yarn matching flower color, sew flowers to cover using Running Stitches around outside edge of each petal. On some of the petals, work Running Stitch approx ½ inch away from the petal tip, allowing tip to curl up a bit.

Weave in all rem ends.

Embellish 3 other sides, 1 at a time, as for first.

Place the cube cover over box or ottoman.

If desired, apply double-stick tape to bottom edge to keep cube cover in place. ■

BERROCO FROM CONCEPT TO CREATION CONTINUED FROM PAGE 23

knitters who like something that looks complicated but is easier than you think. In the other books, although many pieces are listed as intermediate, we try to have things that could be knitted by beginners," she said. "We are after a knitter who is not super-accomplished but knows most of the skills, who'll appreciate one new trick in a pattern that is still doable. We can't have too many of those 'incredible' projects, because even I don't want to knit those."

Each season brings the need for seven new pattern booklets that the design team has to have ready. They are working several seasons ahead of the current season right now in order to be prepared to meet their future deadlines. The pace is always hectic, with a minimum of four weeks from designer's sketch to the model knitter's needles. Days are especially jam-packed during January and June when Norah and Amanda travel to the yarn industry's major trade shows, TNNA—The National NeedleArts Association—in the United States and Pitti Immagine Filati in Italy. "Is it winter or spring?" is a common refrain around the office.

Whether it's winter, spring or in between, photo shoots are the final stop on the design collection's journey. Amanda and Norah find "a theme that ties into a sweater somehow, whether it's geographic or a group of women scientists—there's always something," she said. The patterns' whimsical names all allude to the theme, whether it's architecture or windstorms or women of accomplishment.

Photographing the collection outdoors adds to the challenge of presenting the pieces. "The key is to find a place to do all the changing [of garments] and still have a great location. And we've been really lucky; we ignore the fact that weather could be a factor." Norah said when she and the team see a finished collection, with a great picture of each design, "it's very satisfying, even if sometimes it feels like, oh, is that all we did? And yet what we did is quite a lot." ■

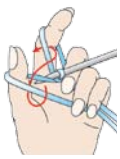
Long-Tail Cast-On

Leaving an end about an inch long for each stitch to be cast on, make a slip knot on the right needle.



Place the thumb and index finger of your left hand between the yarn ends with the long yarn end over your thumb, and the strand from the skein over your index finger. Close your other fingers over the strands to hold them against your palm. Spread your thumb and index fingers apart and draw the yarn into a "V."

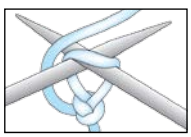
Place the needle in front of the strand around your thumb and bring it underneath this strand. Carry the needle over and under the strand on your index finger.

Draw through loop on thumb.

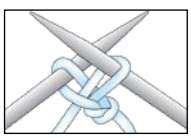
Drop the loop from your thumb and draw up the strand to form a stitch on the needle.

Repeat until you have cast on the number of stitches indicated in the pattern. Remember to count the beginning slip knot as a stitch.

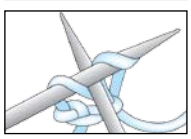
Cable Cast-On



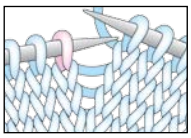
This type of cast-on is used when adding stitches in the middle or at the end of a row.



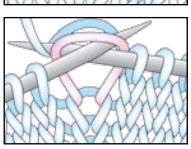
Make a slip knot on the left needle. Knit a stitch in this knot and place it on the left needle. Insert the right needle between the last two stitches on the left needle. Knit a stitch and place it on the left needle. Repeat for each stitch needed.



Knit (k)

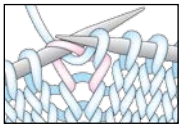


Insert tip of right needle from front to back in next stitch on left needle.

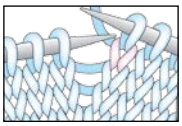


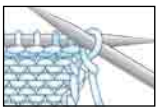
Bring yarn under and over the tip of the right needle.

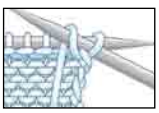
Pull yarn loop through the stitch with right needle point.



Slide the stitch off the left needle. The new stitch is on the right needle.





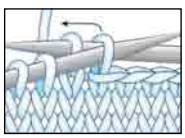


Purl (p)

With yarn in front, insert tip of right needle from back to front through next stitch on the left needle. Bring yarn around the right needle counterclockwise. With right needle, draw yarn back through the stitch.

Slide the stitch off the left needle. The new stitch is on the right needle.

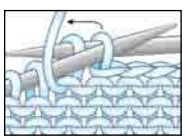
Bind-Off



Binding off (knit)

Knit first two stitches on left needle. Insert tip of left needle into first stitch worked on right needle and pull it over the second stitch and completely off the needle.

Knit the next stitch and repeat. When one stitch remains on right needle, cut yarn and draw tail through last stitch to fasten off.

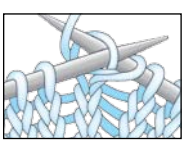


Binding off (purl)

Purl first two stitches on left needle. Insert tip of left needle into first stitch worked on right needle and pull it over the second stitch and completely off the needle.

Purl the next stitch and repeat. When one stitch remains on right needle, cut yarn and draw tail through last stitch to fasten off.

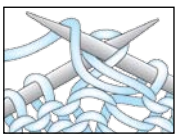
Increase (inc)



Two stitches in one stitch

Increase (knit)

Knit the next stitch in the usual manner, but don't remove the stitch from the left needle. Place right needle behind left needle and knit again into the back of the same stitch. Slip original stitch off left needle.



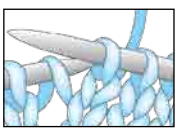
Increase (purl)

Purl the next stitch in the usual manner, but don't remove the stitch from the left needle. Place right needle behind left needle and purl again into the back of the same stitch. Slip original stitch off left needle.

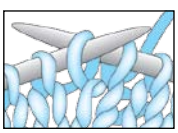
Increase (Make 1)

There are several ways to make or increase one stitch.

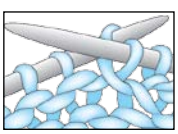
Make 1 with Left Twist (M1L)



Insert left needle from front to back under the horizontal loop between the last stitch worked and next stitch on left needle.

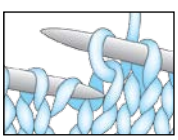


With right needle, knit into the back of this loop.

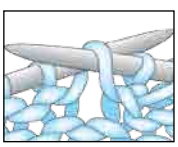


To make this increase on the purl side, insert left needle in same manner and purl into the back of the loop.

Make 1 with Right Twist (M1R)



Insert left needle from back to front under the horizontal loop between the last stitch worked and next stitch on left needle.

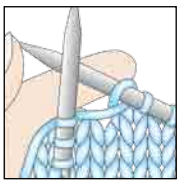


With right needle, knit into the front of this loop.

To make this increase on the purl side, insert left needle in same manner and purl into the front of the loop.

Make 1 with Backward Loop over the right needle

With your thumb, make a loop over the right needle.

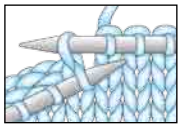


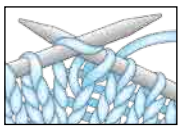
Slip the loop from your thumb onto the needle and pull to tighten.

Make 1 in top of stitch below

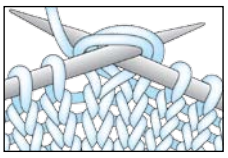
Insert tip of right needle into the stitch on left needle one row below.

Knit this stitch, then knit the stitch on the left needle.



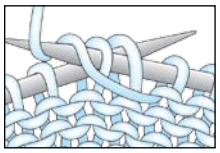


Decrease (dec)



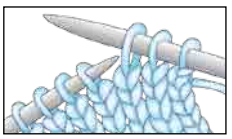
Knit 2 together (k2tog)

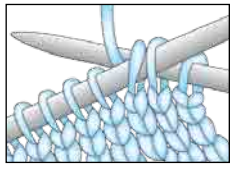
Put tip of right needle through next two stitches on left needle as to knit. Knit these two stitches as one.



Purl 2 together (p2tog)

Put tip of right needle through next two stitches on left needle as to purl. Purl these two stitches as one.

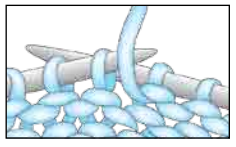


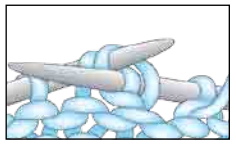


Slip, Slip, Knit (ssk)

Slip next two stitches, one at a time, as if to knit from left needle to right needle.

Insert left needle in front of both stitches and work off needle together.





Slip, Slip, Purl (ssp)

Slip next two stitches, one at a time, as to knit from left needle to right needle. Slip these stitches back onto left needle keeping them twisted. Purl these two stitches together through back loops.

Skill Levels

BEGINNER

Projects for first-time knitters using basic knit and purl stitches. Minimal shaping.

EASY

Projects using basic stitches, repetitive stitch patterns, simple color changes, and simple shaping and finishing.

INTERMEDIATE

Projects with a variety of stitches, such as basic cables and lace, simple intarsia, double-point needles and knitting in the round needle techniques, mid-level shaping and finishing.

EXPERIENCED

Projects using advanced techniques and stitches, such as short rows, Fair Isle, more intricate intarsia, cables, lace patterns and numerous color changes.

KNITTING NEEDLES CONVERSION CHART

U.S.	0	1	2	3	4	5	6	7	8	9	10	10½	11	13	15
Metric(mm)	2	2¼	2¾	3¼	3½	3¾	4	4½	5	5½	6	6½	8	9	10

Basic Stitches

Garter Stitch

On straight needles knit every row. When working in the round on circular or double-point needles, knit one round then purl one round.

Stockinette Stitch

On straight needles knit right-side rows and purl wrong-side rows. When working on circular or double-point needles, knit all rounds.

Reverse Stockinette Stitch

On straight needles purl right-side rows and knit wrong-side rows. On circular or double-point needles, purl all rounds.

Ribbing

Combines knit and purl stitches within a row to give stretch to the garment. Ribbing is most often used for the lower edge of the front and back, the cuffs and neck edge of garments.

The rib pattern is established on the first row. On subsequent rows the knit stitches are knitted and purl stitches are purled to form the ribs.

Reading Pattern Instructions

Before beginning a pattern, look through it to make sure you are familiar with the abbreviations that are used.

Some patterns may be written for more than one size. In this case the smallest size is given first and others are placed in parentheses. When only one number is given, it applies to all sizes.

You may wish to highlight the numbers for the size you are making before beginning. It is also helpful to place a self-sticking note on the pattern to mark any changes made while working the pattern.

Measuring

To measure pieces, lay them flat on a smooth surface. Take the measurement in the middle of the piece. For example, measure the length to the armhole in the center of the front or back piece, not along the outer edge where the edges tend to curve or roll.

Gauge

The single most important factor in determining the finished size of a knit item is the gauge. Although not as important for flat, one-piece items, it is important when making a clothing item that needs to fit properly.

It is important to make a stitch-gauge swatch about 4 inches square with recommended patterns and needles before beginning.

Measure the swatch. If the number of stitches and rows are fewer than indicated under "Gauge" in the pattern, your needles are too large. Try another swatch with smaller-size needles. If the number of stitches and rows are more than indicated under "Gauge" in the pattern, your needles are too small. Try another swatch with larger-size needles.

Continue to adjust needles until correct gauge is achieved.

Working From Charts

When working with more than one color in a row, sometimes a chart is provided to follow the pattern. On the chart each square represents one stitch. A key is given indicating the color or stitch represented by each color or symbol in the box.

When working in rows, odd-numbered rows are usually read from right to left, and even-numbered rows from left to right.

Odd-numbered rows represent the right side of the work and are usually knit. Even-numbered rows represent the wrong side and are usually purled.

When working in rounds, every row on the chart is a right-side row, and is read from right to left.

Use of Zero

In patterns that include various sizes, zeros are sometimes necessary. For example, k0 (0,1) means if you are making the smallest or middle size, you would do nothing, and if you are making the largest size, you would k1.

work even—continue to work in the pattern as established without working any increases or decreases
work in pattern as established—continue to work following the pattern stitch as it has been set up or established on the needle, working any increases or decreases in such a way that the established pattern remains the same
yarn over—method of increasing by wrapping the yarn over the right needle without working a stitch

3-Needle Bind-Off

Use this technique for seaming two edges together, such as when joining a shoulder seam. Hold the edge stitches on two separate needles with right sides together.

With a third needle, knit together a stitch from the front needle with one from the back.

Repeat, knitting a stitch from the front needle with one from the back needle once more.

Slip the first stitch over the second.

Repeat knitting, a front and back pair of stitches together, then bind one off.

Working Short Rows

Wrap/Turn (W/T)

This method of working the shoulder avoids holes or a staggered bound-off edge.

Work as follows:

*Work to indicated turning point, take yarn to right side of fabric (in front on knit row, in back on purl row), slip next stitch purlwise, take yarn to wrong side of fabric (Photo A).

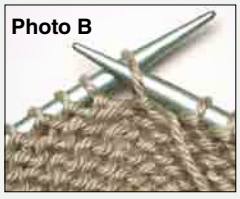
Turn work. Slip stitch, purlwise to right needle (Photo B).

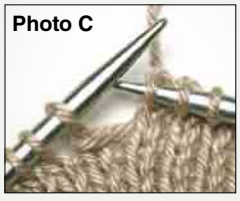
Repeat from * until short rows are completed.

When all wraps are completed, work across row using the following method to work wrap and stitch together.

On knit side, insert tip of right needle into wrap, then into stitch and knit them together (Photo C).

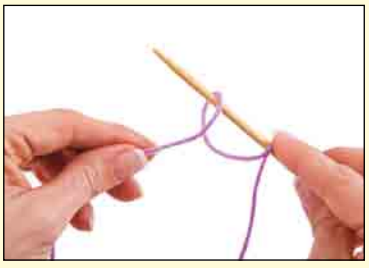
On purl side, insert tip of right needle into wrap from right side, lift it onto left needle, then purl stitch and wrap together.





Backward-Loop Cast-On

This is the first cast-on that many knitters learn. It's very easy to do, but the first row is a little challenging to work. It's a handy one to use if you need to cast on stitches at the beginning or end of a row.



Step 1: Pick up the working yarn with your left hand to create a loop.

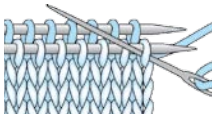
Step 2: Twist the loop around a half turn to the right, until it crosses over itself.

Step 3: Put the loop on the needle and pull the working yarn to tighten.

Kitchener Stitch

This method of grafting the stitches on two parallel needles together is used for toes of socks and other non-seam finishes. To graft the edges together and form an unbroken line of stockinette stitch, divide all stitches evenly onto two knitting needles—one behind the other. Thread yarn into tapestry needle. Hold needles with wrong sides together and work from right to left as follows:

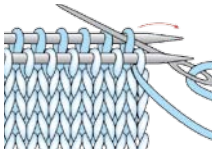
Step 1:



Step 1

Insert tapestry needle into first stitch on front needle as to purl. Draw yarn through stitch, leaving stitch on knitting needle.

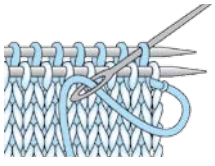
Step 2:



Step 2

Insert tapestry needle into the first stitch on the back needle as to purl. Draw yarn through stitch and slip stitch off knitting needle.

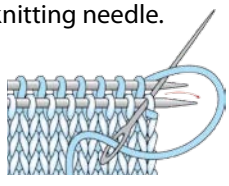
Step 3:



Step 3

Insert tapestry needle into the next stitch on same (back) needle as to knit, leaving stitch on knitting needle.

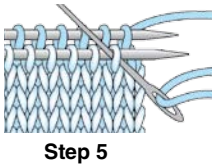
Step 4:



Step 4

Insert tapestry needle into the first stitch on the front needle as to knit. Draw yarn through stitch and slip stitch off knitting needle.

Step 5:



Step 5

Insert tapestry needle into the next stitch on same (front) needle as to purl. Draw yarn through stitch, leaving stitch on knitting needle.

Repeat Steps 2–5 until one stitch is left on each needle. Then repeat Steps 2 and 4. Fasten off. The stitches that form the graft between the two edges should be the same size as the rows above and below them.

Pick Up & Knit

Step 1:
With right side facing, working 1 st in from edge, insert tip of needle in space between first and second stitch.
Step 2:
Wrap yarn around needle. (We show a contrasting color, but you will want to use the same yarn you used for your project.)
Step 3:
Pull loop through to front.
Step 4:
Repeat steps 1–3.

Step 1

Step 2

Step 3

Step 4

I-Cord

Using 2 double-point needles, cast on (back-ward loop method) number of sts indicated. Knit, do not turn. Slip sts back to end of needle, knit sts. Repeat to desired length. Thread yarn through sts to end.

Provisional Cast-On

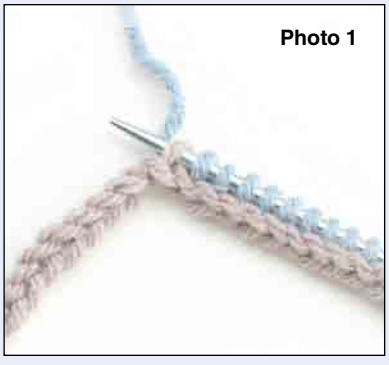
The provisional cast-on has a variety of uses. It starts with a crochet chain on a crochet hook about the same size as the knitting needle. A chart is given below of crochet hooks that correspond most closely to knitting needle sizes.

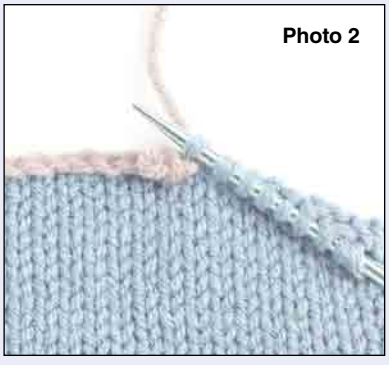
Crochet Hook	Knitting Needle
E	4
F	5
G	6
H	8
I	9
J	10
K	10½

To work this type of cast-on, start with a crochet chain one or two stitches more than the number of stitches to be cast on for the pattern you are working. Since the edge is removed to work in the opposite direction the chain should be made with a contrasting color.

Once the chain is completed, with a knitting needle, pick up and knit in the back bar of each chain (Photo 1) until the required number of stitches is on the needle. Continue to work the pattern as given in the instructions.

Instructions then indicate that the provisional cast-on be removed so the piece can be worked in the opposite direction. In this case, hold the work with the cast-on edge at the top. Undo one loop of the crochet chain, inserting the knitting needle into the stitch below the chain. (This stitch is on the original first row of knitting). Continue to undo the crochet chain until all the stitches are on the needle (Photo 2). This provides a row of stitches ready to work in the opposite direction.



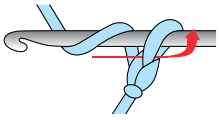


Crochet Abbreviations

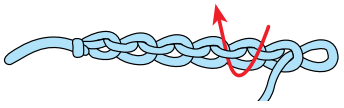
ch	chain stitch
dc	double crochet
hdc	half double crochet
sc	single crochet
sl st	slip stitch
yo	yarn over

Chain (ch)

Yarn over, pull through loop on hook.



Back Bar of Chain

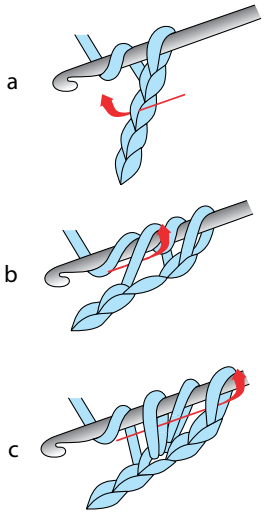


Half Double Crochet (hdc)

Bring yarn over hook from back to front, insert hook in indicated chain stitch.

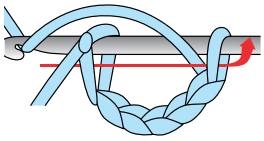
Draw yarn through the chain stitch and onto the hook.

Bring yarn over the hook from back to front and draw it through all three loops on the hook in one motion.



Slip Stitch (sl st)

Insert hook under both loops of the stitch, bring yarn over the hook from back to front and draw it through the stitch and the loop on the hook.



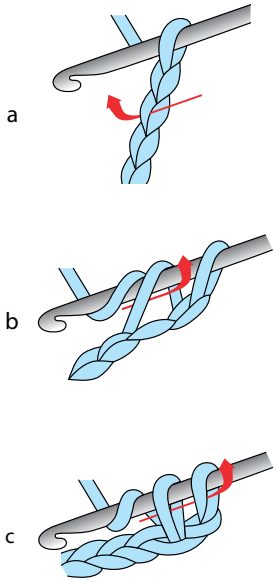
Single Crochet (sc)

Insert the hook in the second chain through the center of the V. Bring the yarn over the hook from back to front.

Draw the yarn through the chain stitch and onto the hook.

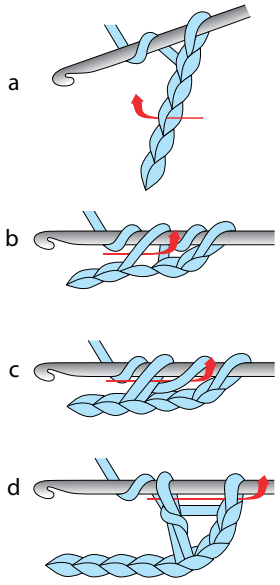
Again bring yarn over the hook from back to front and draw it through both loops on hook.

For additional rows of single crochet, insert the hook under both loops of the previous stitch instead of through the center of the V as when working into the chain stitch.



Double Crochet (dc)

Yarn over, insert hook in stitch, yarn over, pull through stitch, (yarn over, pull through two loops) twice.



Reverse Single Crochet (reverse sc)

Chain 1 (a). Skip first stitch. Working from left to right, insert hook in next stitch from front to back (b), draw up loop on hook, yarn over, and draw through both loops on hook (c).
